

*Formerly named Tactical Small Cap Value. No significant changes have been made to the methodology for managing this strategy.

Objective & Strategy

This strategy seeks long-term growth of capital by investing primarily in small capitalization value stocks. The manager intends to achieve this objective by investing in the common stocks of small market capitalization U.S. companies that, in the manager's opinion, are temporarily undervalued relative to their peers.

Fees for the PIM Program include Advisory services, performance measurement, transaction costs, custody services and trading. The fees do not cover charges and expenses of any mutual funds that may be purchased within the program and customary brokerage charges and expenses of any mutual funds that may be purchased within the program and customary brokerage charges apply to non-program assets. Fees are based on the assets in the account and are assessed quarterly. There is a minimum fee of \$250 per calendar quarter to maintain this type of account. Advisory accounts are not designed for excessively traded or inactive accounts, and may not be suitable for all investors. During periods of lower trading activity, your costs might be lower if our compensation was based on commissions. Please carefully review the Wells Fargo Advisors advisory disclosure document for a full description of our services, including fees and expenses. The minimum account size for this program is \$50,000. You should review your investment objectives, risk tolerance and liquidity needs before selecting a suitable investment program.

The Top Ten Holdings list represents the largest percentage of holdings in a representative account of the style as of the date shown above and is subject to change without notice. The mention of specific securities is not a recommendation or a solicitation for any person to buy, sell or hold a particular security.

Portfolio shown is as of 6/30/2020 and subject to change. As PIM portfolios are separately managed the individual client account holdings will vary, perhaps significantly, from those listed on this factsheet. Information, such as industry sector allocation percentages and market capitalization allocation percentages, will also vary from the information listed on this factsheet. A client opening an account today may, or may not, be invested in securities or sectors based upon the percentages shown on this factsheet. For the most recent portfolio composition please contact the PIM Manager.

The benchmark for the Small Cap Value Portfolio is the Russell 2000 Value Index. This index became the comparison benchmark for the Small Cap Value Portfolio on 11/25/2019 and was changed retroactively back to inception from the Russell 2000 Index. The underlying stock selection and portfolio management process remain unchanged. The benchmark was changed to create a more accurate representation of the portfolio's size and style characteristics. Information regarding the comparison to the Russell 2000 Index is available upon request. The Russell 2000 Value Index measures the performance of those Russell 2000 companies with lower price-to-book ratios and lower forecasted growth values.

Beta - Beta is a measure of systematic risk with respect to a benchmark. Systematic risk is the tendency of the value of the fund and the value of the benchmark to move together. Beta measures the sensitivity of the fund's excess total return (total return minus the risk-free return) with respect to the benchmark's excess return that results from their systematic co-movement.

Russell 2000 Value Index measures the performance of those Russell 2000 companies with lower price-to-book ratios and lower forecasted growth values. 1119-01714
