

Objective & Strategy

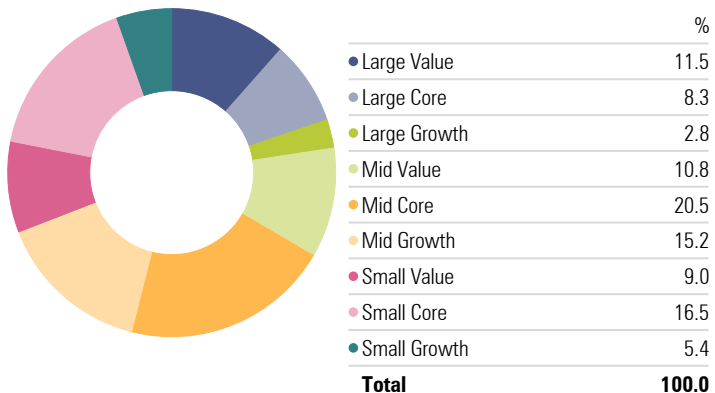

This strategy seeks to maximize long-term returns for a given level of risk by using a highly specialized methodology to select long equity positions in diversified uncorrelated market sectors and averages. The strategy uses ETFs to invest in a variety of asset classes including domestic stocks, international stocks and commodities.

Fees for the PIM Program include Advisory services, performance measurement, transaction costs, custody services and trading. The fees do not cover charges and expenses of any mutual funds that may be purchased within the program and customary brokerage charges and expenses of any mutual funds that may be purchased within the program and customary brokerage charges apply to non-program assets. Fees are based on the assets in the account and are assessed quarterly. There is a minimum fee of \$250 per calendar quarter to maintain this type of account. Advisory accounts are not designed for excessively traded or inactive accounts, and may not be suitable for all investors. During periods of lower trading activity, your costs might be lower if our compensation was based on commissions. Please carefully review the Wells Fargo Advisors advisory disclosure document for a full description of our services, including fees and expenses. The minimum account size for this program is \$50,000. You should review your investment objectives, risk tolerance and liquidity needs before selecting a suitable investment program.

The Top Ten Holdings list represents the largest percentage of holdings in a representative account of the style as of the date shown above and is subject to change without notice. The mention of specific securities is not a recommendation or a solicitation for any person to buy, sell or hold a particular security.
